

TREE HOUSE HEALING MINISTRY

ANNUAL NEWSLETTER Spring 2026

Dear Tree House Branches,

Here we are celebrating 41 years! Thousands of witnesses later (remember the count of paper ones was 4,000 and that was several years back.) So I thought for this newsletter why not just celebrate gratitude. Tree House exists so Jesus can keep restoring his people to wholeness, freedom, and joy.

When so much is going down around us in our world, so much is being raised up in Light — the Light of Love. Every time we uncover the truth of who we are, removing the lies and trauma that held us back, then MORE LIGHT shines out to overcome darkness on our planet.

And that's why Jesus told us, "I am the Light of the World" and "You are to let your Light shine."

Here's some samples of Jesus' work.

*Blessings and Love,
Cecelia Ann, sfcc*

With Heartfelt Gratitude

We hold in prayer and gratitude all our donors and the following whom we honor and remember in grateful love:

Thank you for all your support of Tree House – last fall’s fundraiser, Give St. Louis Day, and those who tithe to us monthly. In 2025 we were able to give \$3,538.00 in scholarship help.

You get to read about the new life and joy in our email bulletins – a small taste of what you’ve supported and made possible.
THANK YOU!

*Those we
love don't go
away, they
walk beside us
every day
unseen,
unheard, but
always near,
still loved,
still missed
and very dear.*

I thanked someone for her generous gift to Tree House, she replied:

Oh, thank you! I could never pay enough for the healing Jesus did in me at the Tree House retreats.

What the retreat meant to me: Focus on transformation - a lifelong search for real life! Then fleshing it out in practical ways - with no interruptions everyday life brings constantly. Then witnessing it in words and the wonderful validation and sharing the process with "like" souls! Such Blessed work! Where else could this happen? The practice in our own lives - with eyes open and God's help is about to start!

It was sometime after this realization that I came upon Tree House Ministry, which was at the very beginning called Nazareth House. This was the lifeline that literally saved my life and brought me to know the God who created me and has loved me since the beginning of my life.

Sister Cecelia was called to a new ministry of bringing people to the love of God, the ONE who created us and loves us perfectly, totally and forever. Tree House Ministry has continued through 41 years to continue this mission and I am forever thankful to God for leading me to Tree House.

An Essay Witness

In recent months Sister Cecelia Ann has heard healing testimonies of retreat participants that demonstrate clearly how healing of oneself is extended to others. Via an amazing grace, a traumatized daughter begins “seeing” her abusing mother receiving the same divine healing along with mom’s mother and beyond! An abused child “sees” cruel dad embraced by Jesus at the same moment self is being healed of dad’s horrific treatment!

What is going on? I am a survivor of multiple types of long and short term abuse from many persons. During my decades long (groan) ongoing process of healing and praying with others for the same, my husband and I have been learning that this extension of restoration is a part of God’s eternal plan and action. [] This is a time when we are being invited and enabled to step into a shared holy identity, a sacred oneness in which we join with Christ in offering [] healing to those who harmed us - who unknowingly, simultaneously harmed themselves, and negatively affected many others. []

Does our Living God, without restrictions of space or time, now bestowing healing to us through Sister Cecelia and other human conduits of grace, not have a similar desire for all persons throughout space or time? {Are we called to be part of it?} []

P ***ayer: Lord, Eternal God of all for all, lead and empower each of us to be instruments of healing, light, love, peace, truth, and unity to all persons past, present, to come. Amen.***

Agnes and Charles Budinger
